

# Driving Mobile Television

Helmut Stein  
DVB Project

Brussels, 20<sup>th</sup> September 2006

- 5 Standardised systems exist:  
DVB-H, T-DMB, S-DMB, DMB-T/H, ISDB-T
- DVB-H is part of the most successful family of standards for digital TV: DVB
  - some are just for mobile TV
  - some aren't completed yet
- DVB-H is actually under test in about 20 countries around the world
- Terminal manufacturers for DVB-H are: BenQ/Siemens, LG, Nokia, Motorola, Philips, Sagem, Samsung, Sony-Ericsson
- Regular operations in 2006:  
DVB-H : Finland, Italy, USA, Northern Germany, Vietnam
